Wheel Press  
WP800

Connection according to customer's specification

## SPECIFICATIONS

- Weight approx. 1310 kg
- Height 2020 mm and max diameter 1180 mm
- Max pressure 320bar to hydraulic cylinder
- Hydraulic cylinder max pressing force 800 kN (320 bar)
- Flow 140 l/min
- Durable polyurethane paint
- Wheel size up to 20"
- Strength steel
- Excavator size min. 12 tons

# Wheel Press WP800

For separating rims and tyres

Capacity 120 tyres per hour

Low maintenance costs
